Summary

Full Stack Developer with 3 years of experience building scalable, AI-driven web applications using **React.js**, **Next.js**, **Node.js**. Proficient in **API** and **AI integrations**, CI/CD pipelines, OAuth 2.0 / SSO, and workflow automations. Skilled in delivering high-performance, data-centric solutions using Firebase, MongoDB, MySQL.

Work Experience

Tru Performance, Pune - Full Stack Developer

05 August 2024 - Present

- Developed a **multilingual Next.js** app with **Contentful CMS**, i18n setup, and optimized API handling—boosting scalability and achieving **85%** client satisfaction.
- Built internal tools, including a ChatGPT-style **Prompt Generator** with Microsoft SSO and a **subscription automation** system using Google Apps Script, raising efficiency and satisfaction to **95%**. Integrated **Salesforce API** with OAuth 2.0 in a MySQL portal, enabling secure token handling and CRUD operations.

Wpoets, Pune - Full Stack Developer

16 February 2023 - 26 July 2024

- Developed a product validation feature for GenusAbsIndia with **400k** individuals and managing **2 million records**, boosting customer satisfaction by **100%**. Worked on an **Uber project** named the ReserveHeroes.

Projects

- [Cygnalabs](#): Built a scalable multilingual platform using **Next.js (SSG/SSR)** and **Contentful CMS**, integrating **Crowdin** and **Algolia** for advanced search. Developed an HR portal with **NextAuth**, storing candidate data in **PostgreSQL** and files in **Vercel Blob**. Optimized performance with batched API calls, across 500+ resources, the **SendGrid** email system, and automated daily CMS backups via **cron job**.
- [VocAI](#): Built an AI-driven platform for real-time interview simulations using **Vapi AI** voice assistant and **Google Gemini API**, and **Firebase**. Crafted with **Next.js**, **Tailwind CSS**, **Shadcn/UI**, and **Zod**.
- [Prompt Generator](#): Built a high-performance **prompt generator** using **React**, **Node.js**, and **Microsoft SSO**, with **Redux** for state management and an Integrated **OpenAI API** to generate context-aware prompts.

Technical Skills

Languages & Framework: React.js, Next.js, Node.js, TypeScript, JavaScript, Express.js, HTML5, CSS3, Tailwind CSS, Bootstrap, SASS, Redux, React Query, Context API, Zustand.

Tools: MongoDB, MySQL, PostgreSQL, Firebase, Contentful CMS, SANITY CMS, Postman, Swagger, OpenAI API, Google Gemini API, Microsoft Graph API, Salesforce API, OAuth 2.0, JWT, SSO, Vercel Blob, Algolia, Crowdin, SendGrid, Google Apps Script, Vapi AI, Git, GitHub, JIRA, Slack, Asana, Monday.com.

Deployment: Vercel, AWS, Digital Ocean, Docker, Nginx, GitHub Actions (CI/CD), Cloudflare.

Certifications & Achievements

- | | | |
|---|----------------------|------|
| 1. Developing Front-End Applications with React - IBM | Link | 2025 |
| 2. Contentful Certified Professional - Contentful CMS | Link | 2025 |
| 3. Rising Star for Q1-2025 at Tru Performance | Link | 2025 |

Education

Savitribai Phule Pune University

2018 - 2022

Bachelor's in Technology - Computer Engineering - MITAOE

CGPA: 8.5
